FILE HISTORY RETRIEVAL — SUITLAND FILES

The Federal Records Center in Suitland, Md. has recently announced that due to staffing limitations, they can no longer escort PTO employees who are conducting special searches for missing file histories. The PTO must now rely solely on Records Center personnel to locate all files. In addition, the Records Center cannot commit to the timely refiling of records returned by the PTO.

A first step in our effort to lessen the impact of this change will be that the PTO File Repository will hold Suitland files for at least three weeks after they are returned by a requestor. This will provide for quicker access to files that are of interest to multiple requestors. It will also enable the PTO to return files to the Suitland facility in bulk, thus enhancing the possibility of a more prompt refile.

PTO CLERICAL AWARDS PROGRAM

The PTO has established a special cash award program for clerical employees, effective Apr. 1. The Clerical Employee of the Year will receive $1,000. Cash awards of $100 will be presented to a maximum of five recipients of the Clerical Employee of the Quarter award. Through this award system, we will demonstrate clearly that the Office appreciates the dedication and contributions of its clerical employees and will publicly bestow on them the honor and respect they deserve.

THERESA A. BRELSFORD,
Assistant Commissioner for Administration.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.
